## Chapter Director's Spiel

Boy has it been HOT! Whew, hot and dry, and you can tell by everyone's brownish lawns. Oh well, hopefully it won't last too long. Just make sure that if you go out on a ride, keep hydrated!

Check out the ride calendar further below in this newsletter, another extended weekend ride on the schedule is over the upcoming Labor Day weekend, Saturday, Sep 4 through Monday, Sep 6. We've starting planned our scheduled ride down the Natchez Trace (roughly where we'll be stopping each night, lodging, etc.). Again, to help our planning, please let us know if you are considering joining us on this ride, it should be fun, and hopefully we'll be past the worst of the Hot August.

Further below in this newsletter is a flyer for a ride being sponsored by Knox County Mayor Glenn Jacobs, a special 20<sup>th</sup> anniversary ride commemorating 911, being held Sunday, September 12<sup>th</sup>.

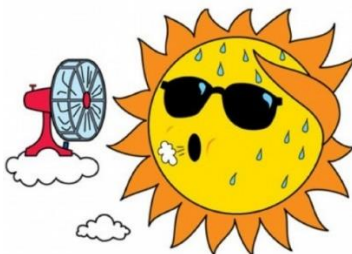

Also below is the flyer and registration form for the TN District Spring Fling Rally, April 28-30, 2022, so check it out and seriously consider participating, it is going to be a whole lot of fun.

I've mentioned it before, but it needs reiteration, the chapter needs YOUR help (at least one of you), we have an Officer position that desperately needs to be filled. The functions are something that are needed, and without someone in that position, it is incumbent upon the Chapter Director to fulfill the requirements, along with everything else. In other words, I need help! The position is that of the Chapter Membership Enhancement Coordinator. There are a few different requirements, nothing really strenuous, but the main one is receiving the monthly membership listing from the District MEC and for those members listed as new members, contact them, and invite them to a gathering to get to know us, and for those members whose membership is about to expire, contact them to remind them (how often do we look at our membership card to see the "expiration date"). If you might be interested in helping out your fellow chapter members (AND your Chapter Director), please contact me and we can discuss it in more detail.

If you have any questions, comments, suggestions of things to do to make all our memberships even more fun, please feel free to contact me and we can discuss them. Take care, stay safe, and we hope to see you soon,

**Brian & Loretta Richards, TN-M Chapter Directors**

---

## Assistant Chapter Director

Let's all be ready to have fun with our chapter friends when we get out and ride.

If you're planning on going for a ride, make sure you, your gear, and especially your ride, are all at their peak performance level and ready to get out there and have fun. And make sure to be wearing the proper gear for safety and the expected conditions. Ride Safe!

**James Whitener, TN-M Assistant Chapter Director**

**Chapter M “Out Having FUN!”**

**TN-M Trip Out West**

**Ken Gray**

First, let me say that I am proud to be the owner of a dependable Honda Goldwing. While being on the road for 17 days and riding 6860 miles through 17 states, I did not have a single issue with my motorcycle or Bushtec trailer. My Goldwing started right up each morning and I rode for an average of 400 miles per day. I didn’t have to add any oil to the engine or even put air in the tires.

My goal for this ride was to go from the Mexican border to the Canadian border on US 191, a very scenic highway that starts in Douglas, AZ. It doesn’t go through any large towns, but it does go near to many national parks and national monuments. It ends at the Canadian border in Morgan, MT. I took many side trips in order to visit the national parks and monuments. Since I wanted to ride the Beartooth Highway and visit Glacier National Park, I had to switch from US 191 to US 89 in Yellowstone National Park and continue my Northward trek. US 89 is also a very scenic highway . The largest town it passes through is Great Falls, MT and it ends at the Canadian Border in Babb, MT.

Basically, my route was to get on I-24 in Chattanooga and take I-24W to I-59S to I-20W to Big Spring, TX. From there it was mostly state highways to the Mexican border in Douglas, AZ and then US 191 and US 89 to the Canadian border. To get home, I took US 89S to I-15S to US 87S to I-90E to US 385S to US 2E to I-80E to I-29S to I-70E to I-64E to I-24E to I-40E and back to Kingston, TN. I rode through many remote areas where the traffic was practically non-existent and all you could see for miles and miles was wilderness. It was nice to be

able to ride at my own pace and enjoy the scenery, but also a little bit scary as cell service was not available in a few of the places and if I had a breakdown, I might have to wait for up to an hour for another vehicle to pass by.

My shortest day was 150 miles, and my longest day was 710 miles. Each day's ride was different depending on what stops I was planning to make that day and what type of road I was riding on. Out West, the speed limit on the interstate highways is 80 MPH, so you can make pretty good time. Even the state highways like US 191 and US 89 have a speed limit of 70 MPH because the roads go straight as an arrow for miles and miles with very few curves. I was pleased to find that most of the roads were in good condition or in the process of being repaved. I'm glad to see that our tax dollars are being well spent on maintaining our infrastructure.

There were some roads where I was averaging only 20 MPH because there were a lot of tight switchbacks or scenic overlooks where I had to stop and take a picture. These roads were the "Beartooth Highway", "Going to the Sun Road" and the "Needles Highway".

I had no issues finding gas as there was usually a gas station every 20 to 30 miles, but there were many times where I went 50 to 70 miles between gas stations, and one time I had to go 135 miles with no services. I was being conservative and whenever my gas gauge got below ½ tank, I started looking for a gas station even though I could have gone farther. As Fran says, "When traveling in unfamiliar territory, Don't Pass Gas".

It rained a lot during my ride, just not where I was at the time. I had to put my rain suit on only three times and used it for less than an hour each time. I could see rain all around me, but most times I passed through an area just after the rain had stopped or just before it started. I did ride on a lot of wet or damp roads though.

Temperatures in the South and Southwest were in the 70's in the morning and 90's in the afternoon, but in Wyoming, Montana and South Dakota the morning temperatures were in the 40's and afternoon temps were in the 60's and 70's. The coldest temperature I saw was 39 degrees and the hottest was 103 degrees. I actually had to turn on the heat in a few of my hotel rooms and I used the seat and handgrip heaters on my bike a few days to stay warm.

I must say that America sure is beautiful. I suffered from sensory overload after looking at all the gorgeous and varied scenery as I passed through the different states and national parks.

These are all the states I rode through:

Tennessee, Georgia, Alabama, Mississippi, Louisiana, Texas, New Mexico, Arizona, Utah, Wyoming, Montana, South Dakota, Nebraska, Iowa, Missouri, Illinois, Kentucky

And these are all the places I visited:

Carlsbad Caverns National Park, Guadalupe Mountain National Park, Chiricahua Desert Museum, Geronimo Surrender Monument, Mexican Border, Petrified Forest National Park, Standing on the Corner in Winslow, Arizona, Monument Valley, Canyonlands National Park, Dinosaur National Monument, Grand Teton National Park, Yellowstone National Park, Beartooth Highway, Glacier National Park - Going to the Sun Road, Canadian Border, Devil's Tower National Monument, Sturgis, South Dakota, Mount Rushmore National Memorial, Crazy Horse Memorial, Custer State Park - Needles Highway

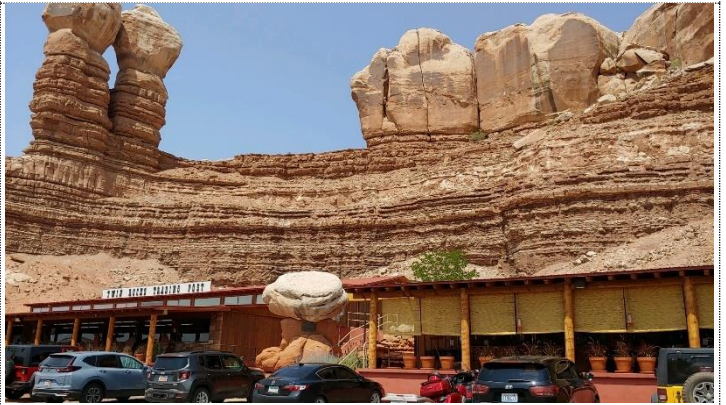

Here are some of the pictures I took:

**KY District Rally in Lawrenceburg, KY, August 19-21**  
**Brian Richards**

Loretta & I attended the KY District Rally in Lawrenceburg, KY and had a really nice time. Of special notice to us, at least, is that we were able to travel to the rally ON OUR MOTORCYCLE! Most all of you know about Loretta's issues from her broken hips and getting serious pain in her hip muscles after a period of time with her legs stretched out to straddle the motorcycle seat. With some PT and exercises, she is building up a tolerance and acceptance, and is now able to go about 45-50 minutes before it gets to be unbearable. And so far, after getting off the bike and getting her legs back straight, within 10 minutes the pain is all gone. When she insisted we could go to the rally on the bike (she's been repeatedly asking me why we go on the chapter rides, and to the rallies, in the car and not on the bike, and I explain how I don't like to put her into so much pain), I said okay since it was a relatively short distance from home to the rally, about 3 hours riding time. I planned out our route to add a rest stop about every 45 minutes, for about 10-15 minutes, and that worked fairly well, both going and coming home.

The rally was a lot of fun, Thursday evening there was a concert sponsored for the District by the Anderson County Visitor's Bureau, at a local park, with a local band playing, and several food trucks as well as a shaved ice truck. It had been advertised to the local community, so there were a lot of other people there besides us rally attendees, and we all had a fun evening, enjoying some really nice music, good food, and friends. As is usual for us at a rally, since we go to so many every year, we've met a LOT of members and the nicest thing about the

rallies is our opportunity to renew those friendships with members from other Districts that we haven't seen in a while.

I had told the District Director that we were willing to help out in any way we could, and when we arrived there he immediately informed me of a problem that he hoped I could solve – his District Educator, who had all the plans set up for a “People’s Choice Bike Show”, had called him the evening before informing him that he and his wife were extremely sick and couldn't come. Since I had told Rick that I was able to judge bike shows, among other things, he asked if I would be willing and able to take over the function of the bike show, and of course I agreed. It worked out really well, we had voting slips that we gave one to each member that came out to check out the bikes, and we had a number on each bike's headlight, for them to mark on their ballot. Of special thrill to us was our bike won in the “Custom 2-wheeled” class. Yippee!

We enjoyed ourselves quite a bit, so we definitely plan on going again next year, which is planned to be at the same location, which was an American Legion Post.

**TN-M dinner ride to Pizzeria Venti in Vonore, August 25<sup>th</sup>**  
**Brian Richards**

A good group of 10 members showed up at the Pizzeria Venti in Vonore, set up thanks to Bill Cummings. They put us on an extended table, so we were all together, which was nice. They had more tables than we needed, but at the beginning when there were still just a few of us there, we had to chase away some other customers that tried to sit at the table at the end of our row, 😊

As per usual, there was a lot of the usual noise and laughter, which is always good, and expected when a bunch of us get together.

And of course, after dinner, there was discussion about finding the nearest ice cream, and it was determined to go to Bruster's in Maryville. Service was slow, but we weren't in a hurry. We all sat around a table and there was more laughter and stories, talks about rides taken, and rides coming up. It was a nice ending to another fun evening together with our friends.

Trailer for sale, contact Rob Ashcraft, 865-924-6794. Just sitting in my garage collecting dust, I hate to see it there. We had it custom painted to match our 1500 when we owned it. I replaced all the lights with LEDs, also personally remade the wood pieces across the top. The tires & rims were replaced at one of the last Spring Flings we attended. It pulls fantastic, asking \$1,000.00, OBO.

**Some “Fun” stuff to brighten your day.**

Things to Think About:

- What if my dog only brings back the ball because he thinks I like throwing it?
- If poison is past its expiration date, is it more poisonous or is it no longer poisonous?
- Which letter is silent in the word “Scent”, the S or the C?
- Do twins ever realize that one of them is unplanned?
- Why is the letter w, in English, called double u? Shouldn't it be called double v?
- Maybe oxygen is slowly killing you and it just takes 75-100 years to fully work.
- Every time you clean something, you just make something else dirty.
- The word “swims” upside-down is still “swims”.
- Intentionally losing a game of rock-paper-scissors is just as hard as trying to win.
- 100 years ago, everyone owned a horse and only the rich had cars. Today everyone has cars and only the rich own horses.
- Your future self is watching you right now through memories
- The doctors that told Stephen Hawking he had two years to live in 1953 are probably dead.
- If you replace “W” with “T” in “What, Where and When”, you get the answer to each of them.
- Many animals probably need glasses, but nobody knows it.
- If you rip a hole in a net, there are actually fewer holes in it than there were before.
